

toSeniors : Call app

Graphic mock-up of the user interface of the Calls app

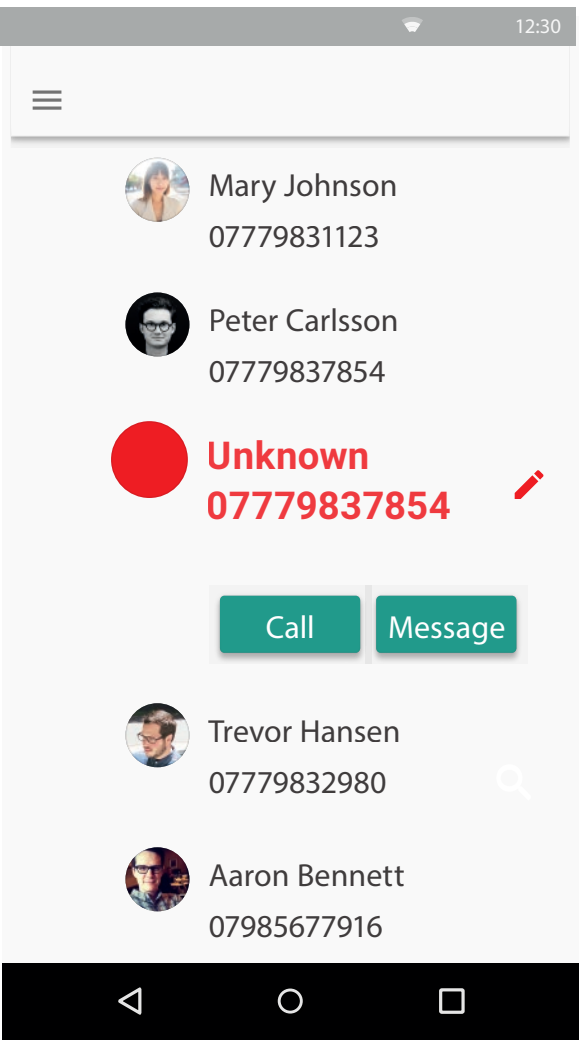

The document depicts the Call app. It shows the scenarios of 1) incoming call 2) browsing recent calls and adding a new contact from an unknown number.

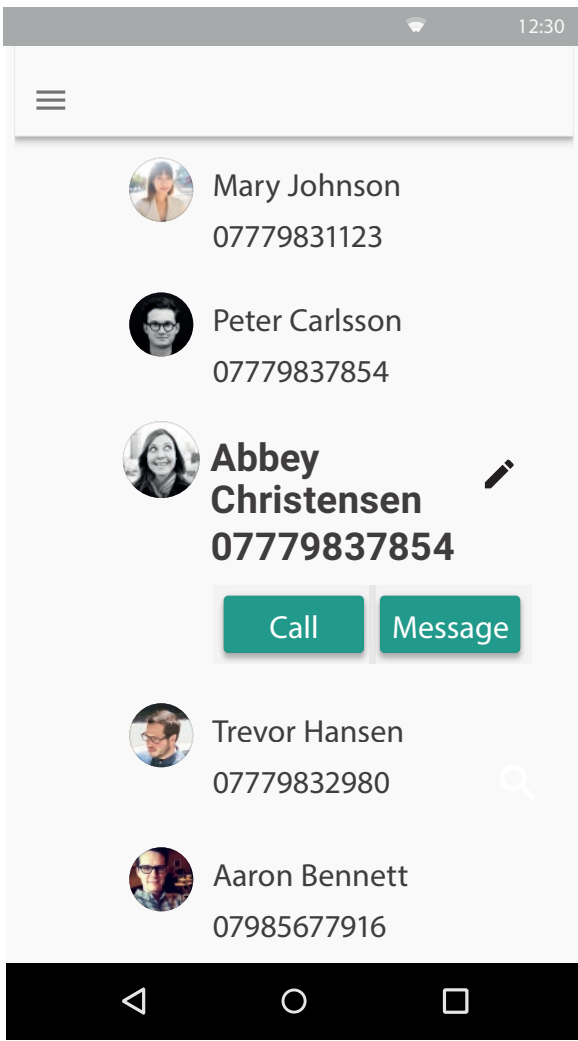

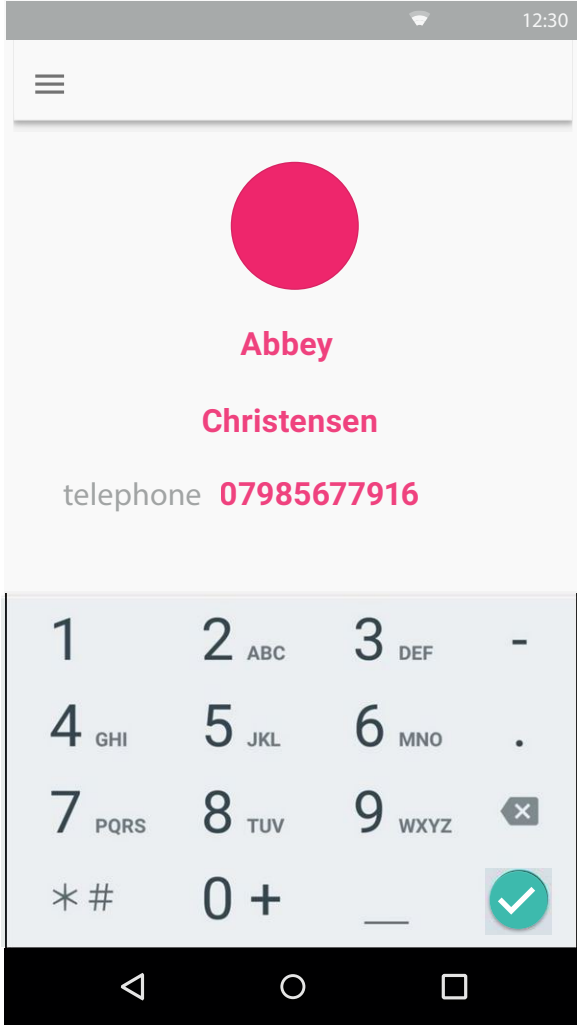

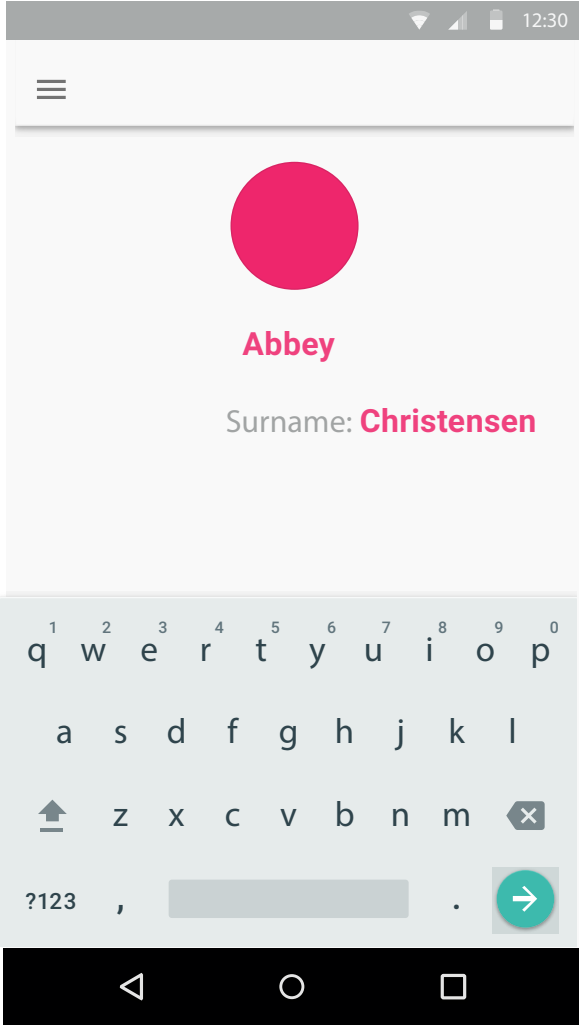

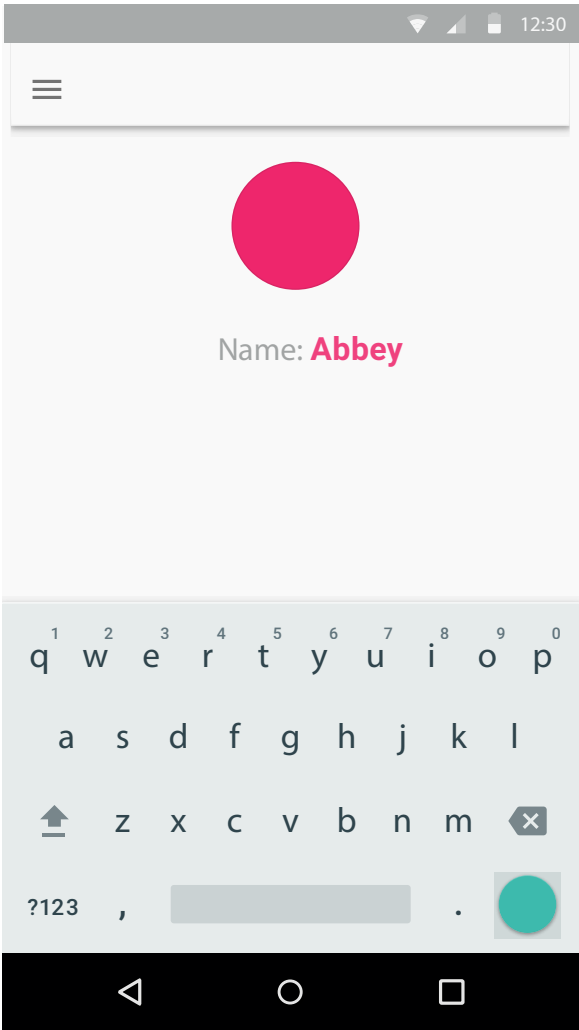

incoming call: two given options answer or decline. Image can also be shown as full width rectangle.

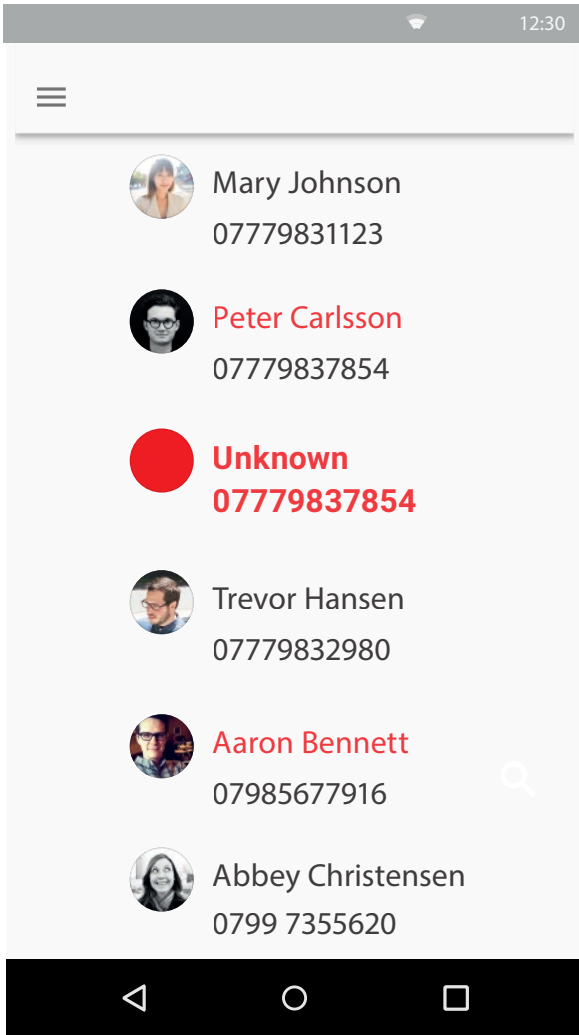

browsing recent calls. Incoming non answered calls from inknown number is highlighted red with bold font.

the following process continues exactly as in Contacts app.

process as finalized by Alkis

browsing recent calls. Incoming non answered calls could be highlighted red. (just the names)
